FISCO Decentralized Application Platform Ltd.

FISCO Begins Accepting Second Round FSCC Lending

~Second Round of Lending From 9 am, June 1, 2021~

FISCO Decentralized Application Platform Ltd. (Head Office: Kishiwada, Osaka; President and CEO: Shuichi Shiromaru; “FDAP”) hereby announces an overview of the second round of FISCO Coin (“FSCC”) lending applications.

■ Information about Lending Application

A smart contract has been implemented for this application on the Ethereum blockchain, which is made to prevent counterfeiting. The holders of FSCC will be able to receive the lending payments by lending the FSCC through a smart contract.

This application is being designed and developed as a decentralized application (“DApps” *1) with the assumption that the specifications, etc. of the application will be changed in the future through a decision made by participants in the FSCC community.

(*1) Stands for “Decentralized applications” (an application with no central authority and decentralized management). A decentralized, administrator-free application that uses blockchains.

● Overview of Application Functions

- Lending applications for FISCO Coin (FSCC)
- Confirmation of smart contract (contract details)
- Return of FSCC that are lent and payment of lending payments
- Cancellation of automatic renewal for smart contract

● Date for beginning of services and link to application website

June 1, 2021 (Tuesday) 9:00 am

Link to application website (Japanese): <https://fiscocoin.com/lending/>

● Second round of acceptance of lending applications (planned)

Acceptance of applications for the second round of lending will start from 9 am on June 1, 2021 and continue until 8:59 am on June 28, 2021. The total amount of lending payments to be paid in the second round is expected to be ¥250,000. The lending payments paid to each lender will be calculated based on the total amount lent and amount lent by each lender. As a result, the lending payments paid to each lender will be greater when the total amount lent is low; conversely, the lending payments paid to each lender will be smaller when the total amount lent is large.

FDAP aims to expand the range of use of FSCC and create new business that utilizes the concepts of DApps and DeFi (Decentralized Finance *2).

News Release

(*2) Stands for Decentralized Finance. DApps in the field of finance. It offers services such as cryptocurrency exchanges with no central authority, derivatives and lending, making it one of the most talked about fields.
